

Hello Reviewers,

Thank you for agreeing to take the time to review the document, *Climate Change and the Olympic Coast: Interpreting Potential Futures*. The report may be downloaded from this link: XXX. Please make your edits and comments to the draft directly using the track changes feature in Word and try to return everything by February 18. If you are only able to review subsections of the report due to time constraints and/or focused expertise, please touch base with me in advance to determine what sections you should review.

A couple small things to note before you begin:

- First, there are some known issues with formatting, but it shouldn't compromise a content review (e.g., they include the numbering of introductory headings and figures; formatting of call out boxed).
- Next, some of the in-text citations haven't yet been entered into the bibliography. If you have any questions about references, or need copies of papers, let me know and we can send them along.
- Third, it is likely that there will be some addition of photos to the document. They will be there simply for illustration, and won't change the content in any way.

Please let me know if you have any questions, and I look forward to receiving your review of this report by February 18.
